PROFESSIONAL SUMMARY

Final-year Computer Science student with hands-on experience in full-stack web development, mobile application development, computer vision, and machine learning. Experienced in building web applications and REST APIs using Java, Spring Boot, JavaScript, and Spring Data JPA, along with developing mobile and AI-based applications. Strong foundation in Java, Python, Flutter, and core CS principles. Seeking an entry-level Full Stack Developer - Java opportunity.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science & Engineering 2023 – 2027 (Expected)
HKE Society's Sir M. Visvesvaraya College of Engineering, Yermarus, Raichur
CGPA: 7.64 / 10.0 | SGPA: 8.22

TECHNICAL SKILLS

Programming Languages:	Java, Python, C, JavaScript (ES6+), Dart, SQL
Backend & Web:	Spring Boot, Spring Data JPA, REST APIs, HTML, CSS, JavaScript
Databases:	H2, SQL, Firebase
Mobile Development:	Flutter
ML & Computer Vision:	PyTorch, ResNet18, ONNX Runtime, OpenCV, Digital Image Processing, Feature Extraction
Core Computer Science:	Data Structures & Algorithms, Object-Oriented Programming, DBMS
Tools & Platforms:	Git, GitHub, VS Code, Linux CLI, Jupyter Notebook, Maven

KEY PROJECTS & HACKATHONS

JobTrack - Job Application Management System 2026
Full-Stack Developer

Technologies: Java Spring Boot | Spring Data JPA | H2 | REST APIs | HTML | CSS | JavaScript

- Built a full-stack job application management system utilizing Java, Spring Boot, Spring Data JPA, H2, and RESTful APIs.
- Developed RESTful CRUD APIs for creating, viewing, updating, and deleting job applications with filtering features.
- Implemented Controller-Service-Repository architecture, request validation, BCrypt password hashing, and exception handling.
- Integrated Spring Boot REST backend with a JavaScript frontend and deployed using Render and GitHub Pages.

Aegis Pure: AI-Based Fruit Safety Screening Application 2026
Lead Mobile & ML Developer

Technologies: Flutter | Python | PyTorch | ONNX Runtime | Firebase | Computer Vision

- Developed a Flutter-based mobile app for smartphone image-based fruit identification and food-safety screening.
- Implemented and trained ResNet18-based computer vision models for fruit recognition across Apple, Banana, Mango, and Orange.
- Developed fruit-specific disease screening models using real-world RGB datasets to detect health abnormalities.
- Converted trained PyTorch models to ONNX and integrated them into Android via ONNX Runtime for edge execution.
- Evaluated models using held-out and independent datasets, identifying domain-shift limitations to incorporate confidence-aware screening.

Interactive Weather Dashboard Platform

2026

Frontend Developer

Technologies: JavaScript (ES6+) | Open-Meteo REST API | HTML5/CSS3

- Implemented an asynchronous REST API workflow for multi-city weather searches across 100+ locations.
- Designed a glassmorphism dashboard using CSS Grid/Flexbox with dynamic weather-code mapping.

Personal Finance Management System & Expense Tracker

2025

Full-Stack Developer

Technologies: JavaScript (ES6+) | LocalStorage API | Chart.js

- Developed a real-time web application featuring dynamic budget analytics and custom visual expense categorizations.
- Implemented client-side persistent storage with Web Storage API, eliminating backend response delays for local data retrieval.

Mini Code Canva: Interactive Gamified Learning Platform

2025

Frontend Developer

Technologies: JavaScript (ES6+) | DOM Manipulation | HTML5/CSS3

- Created an interactive e-learning platform incorporating 15+ algorithmic puzzles and quizzes to train beginners.

Smart India Hackathon (SIH 2025)

2025

Solution Architect & Designer

Focus: Higher Education Digital Support | UI/UX Architecture

- Designed a confidential digital psychological support platform architecture targeting student mental health interventions.

CERTIFICATIONS & TRAINING

- **Java Development Training – Besant Technologies, Bangalore (September 2026)**
- **Placement Assistance Program Certification – TopGrade Innovation (2026)**
Focused on essential career skills including resume building, interview preparation, professional communication, and industry awareness.
- **NPTEL Elite Certification: Cloud Computing (12-Week Course) – IIT Kharagpur (Score: 63%)**
- **NPTEL Elite Certification: Programming In Java (12-Week Course) – IIT Kharagpur (Score: 60%)**
- **Center of Excellence in AI Assessment: Skill Challenge - Python Programming (2026)**
- **Simplilearn SkillUp: C Programming Basics Certification**

LEADERSHIP & PROFESSIONAL DEVELOPMENT

She Innovates Entrepreneurship Bootcamp

2026

Selected Participant | VTU VRIF Belagavi Startup Accelerator

- Selected as 1 of 53 student entrepreneurs for an intensive 6-day flagship startup accelerator.
- Applied 5W1H Problem Recognition and "5 Whys" root-cause methodologies to validate product-market fit.

TCS Empowers Youth Employment Program (YEP)

2026

Corporate Readiness Participant | Tata Consultancy Services

- Completed intensive corporate readiness training focusing on software engineering industry standards, agile collaboration, and business communication.
