Portfolio: harshitha1409-m.github.io/portfolio

Final-year Computer Science student skilled in full-stack web development, digital image processing, and machine learning. Hands-on experience building responsive web applications, integrating APIs, and applying AI models to solve real-world problems. Strong foundation in Java, Python, and core CS principles, passionate about writing clean code and creating intuitive software.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science & Engineering

2023 – 2027 (Expected)

Sir M. Visvesvaraya College of Engineering, Yermarus, Raichur • CGPA: 7.4 / 10.0 • SGPA: 8.22

TECHNICAL SKILLS

Programming Languages: Java, Python, C, JavaScript (ES6+), HTML5, CSS3, SQL

AI, ML & Vision: Digital Image Processing, Computer Vision, OpenCV, Neuro-Spectral Analysis, Feature Extraction

Web & APIs: Full-Stack Web Development, RESTful APIs, DOM Manipulation, Fetch API, Responsive Design

Developer Tools: VS Code, Git, GitHub, Linux CLI, Jupyter Notebooks

Core CS Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS

KEY PROJECTS & HACKATHONS

Aegis-Spectra: AI-Driven Spectral Analysis & Image Processing

2026

Lead Developer

Python, OpenCV, NumPy, SciPy, Jupyter Notebooks

- Architected a non-invasive neuro-spectral image analysis pipeline to detect agricultural produce pesticide residues without physical sample destruction.
- Optimized spatial feature extraction and image enhancement algorithms, achieving a ~20% increase in signal clarity compared to traditional RGB imagery.
- Formulated end-to-end data processing workflows for high-dimensional image spectral datasets.

Interactive Weather Dashboard Platform

2026

Frontend Developer

JavaScript (ES6+), Open-Meteo REST API, HTML5/CSS3

- Engineered an asynchronous two-tier REST API workflow integration, decreasing query latency for multi-city weather searches across 100+ global locations.
- Designed a glassmorphism UI/UX dashboard utilizing CSS Grid/Flexbox and dynamic weather-code mapping functions.

Personal Finance Management System & Expense Tracker

2025

Full-Stack Developer

JavaScript (ES6+), LocalStorage API, Chart.js

- Developed a real-time web application featuring dynamic budget analytics and custom visual expense categorizations.
- Implemented client-side persistent storage with Web Storage API, eliminating backend response delays for local data retrieval.

Mini Code Canva: Interactive Gamified Learning Platform

2025

Frontend Developer

JavaScript (ES6+), DOM Manipulation, HTML5/CSS3

- Created an interactive e-learning platform incorporating 15+ algorithmic puzzles and quizzes to train beginners in core web development fundamentals.

Smart India Hackathon (SIH 2025)

2025

Solution Architect & Designer

Higher Education Digital Support

- Designed a confidential digital psychological support platform architecture targeting student mental health interventions.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

She Innovates Entrepreneurship Bootcamp

2026

Selected Participant | VTU VRIF Belagavi

- Selected as 1 of 53 student entrepreneurs for an intensive 6-day flagship startup accelerator.
- Applied 5W1H Problem Recognition and "5 Whys" root-cause methodologies to validate product-market fit.

TCS Empowers Youth Employment Program (YEP)

2026

Corporate Readiness Graduate | Tata Consultancy Services

- Completed intensive corporate readiness training focusing on software engineering industry standards, agile collaboration, and business communication.
